

C.I.P SYSTEM

EFFICIENT WHILE
PRESERVING YOUR RESSOURCES

Qualtech presents an effective Clean In Place concept. Consistent and reliable our C.I.P system uses innovative technologies enabling you to improve your overall productivity. The C.I.P system of Qualtech is associated with three key performance factors: cost, efficiency and environment.

- Substantial saving on chemicals (up to 50%)
- Optimization of washing operations increasing production time potential
- Significant reduction of effluent
- Product saving technology
- Increased repetitiveness of quality washes
- Significant increase of profitability
